

Library Instruction Request Form
Merner Pfeiffer Library
Tennessee Wesleyan College

Do your students have research projects assigned which will involve library work? Please schedule a class period at the library!

The library faculty can present a library instruction session tailored to your students' assignment, emphasizing the print and online reference sources, bibliographies, indexes and search strategy relevant to the assignment.

Please schedule the class at least two weeks in advance. We need information about the assignment, students' topics, and any specifics you'd like covered. We recommend that you be present during the class. Call Julie Adams for more information, ext. 5251, and fill out this form to schedule your class.

Date: _____

Instructor's name _____ Dept. _____

Phone _____ e-mail address _____
